

# WHY I LOVE MY BERNINA<sup>+</sup>

*Deborah Louie is an expert domestic machine quilting tutor, she is accredited by the Quilters' Guild of NSW, and has won multi awards for her work. Deborah teaches outstanding courses designed to suit individual requirements. She is willing to travel to teach at shops, groups, retreats and symposiums.*

- ♥ My 440 allows me to quilt my quilts highly efficiently.
- ♥ Immediate stopping and starting, accurate stitching to the finest point, no extra stitches after foot pedal released.
- ♥ Stitch length, width and needle position held, while interchanging any stitch program on the machine. Very clever – a huge time saver.
- ♥ Needle up and down on the foot pedal and on the front of the machine at eye level, to draw up the bobbin thread so efficient.
- ♥ Metal bobbin case and bobbins give my work perfect bobbin tension every time. So easy to adjust for different weight threads.
- ♥ Bobbin never jumps out of tension even at highest speeds of free motion quilting. Perfect stitching every time.
- ♥ Adjustable foot pressure a treasure, gives me complete control over difficult fabrics.
- ♥ The 1/4in foot is a perfect 1/4in seam.
- ♥ The open toe walking foot feeds even the highest loft and largest quilts through perfectly, never dragging or puckering, giving me flat perfect machine quilting.
- ♥ Knee lift allows my hands to stay on the work.
- ♥ Multi spool holder holds up to 14 reels of thread making threading a dream with the needle threader.
- ♥ The bobbin winder has speed control for even distribution of thread on the metal bobbin.
- ♥ The accessory holder (Barbie wardrobe as we affectionately call it) holds all accessories together and fits on the back of the machine.
- ♥ I can get a foot for any sewing need I may have.
- ♥ Straight stitch plate gives me perfect stitching for piecing, quilting with walking foot and free motion quilting.
- ♥ Double blanket stitch looks like stunning hand stitching.
